

Dejavoo Z11

Dejavoo

Process Fast, Secure In-Store Credit Card Transactions

The Z11 countertop payment terminal offers an easy to use EMV payment experience designed for every business owner. With easy access to frequently used options in the “Favorites” Menu, “On Screen Help,” and a simple “Call Me” button to request a support representative callback, merchants will love the simplified features and ISOs will love the easy programming of Dejavoo.

Effortless and Easy Features with Hi-Performance.

- Secure EMV Certified Z-Line of Countertop Payment Terminals with EMV Chip Reader.
- PCI Internal PIN Pad.
- NFC Contactless Reader Standard with all the following features for Apple Pay, Android Pay, and Samsung Pay.
- Built-in loyalty program – no loyalty cards or host communication needed.
- Connects with DeNovo business portal for transaction upload, signature capture, loyalty back up, batch notification, Call Me, Messaging and more.
- Optional WiFi models for Tri Comm (IP, Dial, and WiFi) with Quick and Easy WiFi set up. Terminal finds available networks.
- GoGreen with electronic receipt options, sends receipts to consumers via email or SMS text message.
